Experience

Agricultural Bank of China
Analyst

Beijing, China
2021 ~ now · 1yr

I work in the Strategic Planning department and the Green Finance Research Institute at the headquarter. I conduct research on climate change, environmental protection and sustainable finance. We produce books and research reports, organize seminars and meetings. Besides research, I also edit and distribute news within the banking group.

Ping An Technology
Product Manager Intern

Shenzhen, China
2020 · 2mos

Worked on an AI-translation correction platform. Detected users' fraudulent behaviors from production data, and provided a simple model for automatic detection and prevention. Drew prototypes with Axure. Finally, also completed a research report on edge computing, as well as several patent proposals.

Harvard University
Research Assistant

Cambridge, USA
2017 · 4mos

I worked in a team to digitalize thousands of Chinese gazetteers at the Harvard-Yenching Library. I scanned thousands of book pages to extract the data with the help of some computer vision software, and cleaned and organized the data with Python. I also presented an analysis of the population and education data in a seminar at Harvard.
